

SUNSCREEN FORM

Each parent is responsible for purchasing one bottle of the sunscreen listed below for your child's classroom. This sunscreen is the Wal-mart brand, Equate, which is comparable to Coppertone Kids SPF 50 Lotion. We chose this specific type because of the coverage, cost, and availability. The teachers will apply the same sunscreen to every child in the room to make an easier transition to outdoor times. If your child has sensitivity to the sunscreen that we will be using, you will need to supply that specific sunscreen for your child instead. Please make sure that you apply sunscreen to your child each morning before dropping them off. The teachers will reapply after naptime, before water play, and as needed. The summer program teacher will reapply sunscreen periodically throughout the day. Please return this form to the office upon receipt. We must have this form signed and returned in order to apply sunscreen to your child! You may also drop off your bottle of sunscreen to the office. Thanks!

Active Ingredients: Homosalate 15%, Octinoxate 7.5%, Octisalate 5%, Titanium Dioxide 2.3%. Purpose: Sunscreen.
